Stem Cell Services

Our highly customized stem cell service is dedicated to accelerating your stem cell research. trenzyme's service portfolio offers a comprehensive platform for all aspect of stem cell research, including stem cell characterization, cell banking and directed differentiation into functional cells of various lineages.

- ✓ Differentiation into all cell types (endo-, meso-, or ectoderm lineages)
- ✓ One-stop-shop: from iPSC banking to shipment of ready-to-use differentiated cells
- ✓ Comprehensive project proposal and feasibility check
- ✓ Modular service according to your needs
- ✓ Close collaboration & technical discussion with clients and academic partners

Customized Differentiation Service

Our experienced differentiation experts assist you in developing highly customized iPSC differentiation protocols according to your specific needs.

Run-Through Differentiation Service

For your routine iPSC differentiation projects our well trained team supports you as an extended workbench.

iPSC Characterization & Banking Service

Benefit from the variety of iPSC culture formats and functional readouts to standardize your stem cell cultures.

“trenzyme is one of our preferred service providers for cell line development and molecular biology services. The impressive level of personal customer liaison and the scientific competence are decisive factors for us to cooperate with trenzyme for many years and even to intensify in the area of demanding iPS cell line projects.”

Dr. Margit Bauer & Dr. Ralf Heilker

Boehringer Ingelheim Pharma GmbH & Co KG, Biberach, Germany

Why choose trenzyme - your benefits from working with us:

- Our modular project designs are custom-tailored to your specific project requirements
- Our scientific experts will complete your project successfully and efficiently
- Your project manager keeps you constantly informed on progress throughout the project
- We are a reliable and long-standing partner of many international pharmaceutical companies
- High quality management standards: ISO 9001:2015 certified company

Discover all the services we offer:

- ▶ Stable Cell Line Development
- ▶ GMP-compliant Production Cell Lines
- ▶ Cell Expansion
- ▶ Guaranteed Protein Expression Packages
- ▶ Custom Protein Production & Purification
- ▶ Recombinant SARS-CoV-2 Proteins
